Allowable Subject Matter

1. Claims 19-23, 25 and 31 are allowed.

Reasons for Allowance

2. The following is an Examiner's statement of reasons for the indication of allowable subject matter:

The closest prior art is to Hicks, Mitzi (US Patent 6,615,184). Hicks teaches a computerized system and method providing a database wherein information about suppliers and their products are stored including hyperlinks to the suppliers' websites, receiving a request data from a customer, searching the database for suppliers and their products matching the customer's request data and then sending the supplier contact information corresponding the matching supplier and receiving order information for a new order from the user (col.5, lines 7-13, lines 27-32, col.6, lines 6-17, col.7, lines 6-9, col.7, line 47-col.8, line 10, col.10, lines 4-25, col.3, line 62-col.4, line 19, col.6, line 67-col.7, line 9, col.8, lines 11-49, col.9, lines 2- 30). However, Hicks does not teach wherein the nondisclosure agreement data is based on a nondisclosure agreement initiated with the nondisclosure agreement mechanism that is independently accessible by both the user and a third party using the contract manufacturing framework to initiate the nondisclosure agreement as recited in independent claims 19, 25 and 31.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

a. Chipman et al (WO 99/13417), discloses a computerized system and method allowing the suppliers to publish information in electronic catalogs so that a customer can search and retrieve information on products and suppliers which match the customer requirements.
